A lean-to is originally defined as a building in which the rafters lean against another building or wall, a penthouse. These structures frequently have skillion rooves and as such are sometimes referred to as "skillions".. A lean-to shelter is a free standing structure with only three walls and a single-pitched roof. The open side is commonly oriented away from the prevailing winds and rains.

### **Lean-to - Wikipedia**

A core component of Lean Startup methodology is the build-measure-learn feedback loop. The first step is figuring out the problem that needs to be solved and then developing a minimum viable product (MVP) to begin the process of learning as quickly as possible.
