## **ICTs IN EDUCATION FOR PEOPLE WITH SPECIAL NEEDS**

Education policymakers and planners must first of all be clear about what educational outcomes (which is discussed above) are being targeted. These broad goals should guide the choice of technologies to be used and their modalities of use. The potential of each technology varies according to how it ...

1 The authors chose to focus on Asia as currently most developing-country interventions in education using mobile phones are being undertaken in Asia, exploiting the relative ubiquity of the technology in the region. Early indications suggest that Asia can be the global leader in the development of educational uses of mobiles (Motlik, 2008). This study sought to explore the potential of mobile ...
