Balchem Corporation Acquires Innovative Food Processors, Inc.

October 1, 2008 First published in Journal of Food Science. October 2008. 73(8): R107 – R116. doi: 10.1111/j.1750-3841.2008.00933.x. (Download PDF version) Introduction . Food and beverage packaging comprises 55% to 65% of the \$130 billion value of packaging in the United States (Brody 2008).

Innovative Food Packaging Solutions - IFT.org

Food technology is a branch of food science that deals with the production processes that make foods.. Early scientific research into food technology concentrated on food preservation. Nicolas Appert's development in 1810 of the canning process was a decisive event. The process wasn't called canning then and Appert did not really know the principle on which his process worked, but canning ...

Food irradiation is the process of exposing food and food packaging to ionizing radiation. Ionizing radiation, such as from gamma rays, x-rays, or electron beams, is energy that can be transmitted without direct contact to the source of the energy capable of freeing electrons from their atomic bonds in the targeted food. The radiation can be emitted by a radioactive substance or generated ...

Food irradiation - Wikipedia

The Journal of Microbiology, Biotechnology and Food Sciences is an Open Access, peer-reviewed online scientific journal published by the Faculty of Biotechnology and Food Sciences (Slovak University of Agriculture in Nitra).
